

## HCC FAULT REPORT

DATE	LOCATION	FAULT REPORT NO	DETAILS
11.07.2025	FP31	401004711020	Dangerous to walk due to scrap metal, fencing and machinery buried and making footpath unstable
19.07.2025	Crossroads at Mentley Lane and Munden Road  What3Words location ///clock.airbase.pheasants,	401004719613	The crossroads lines have faded to be non-existent. A recent accident highlighted the crossroads highlighted that it is not becoming dangerous as cars do not know when to stop/giveaway when approaching Munden from Mentley Lane.  Signage would also be useful to prevent accidents too but road markings are not essential and urgent.
23.07.2025	Footpath FP46 shortly after junction with Giffords Lane /Munden Road, overgrowing vegetation/branches overhanging just before the steeper incline of Kings Hill. approx What3Words location ///yield.letter.cover.	401004725467	Overhanging vegetation and branches by horse riders makes the path difficult
15.08.2025	Location: Crossroads at Mentley Lane and Munden Road What3Words location ///clock.airbase.pheasants , Mentley Lane West, Standon	401004750985	Great Munden Parish Council have already reported under case no 401004719613. In the past 7 years there have been 5 vehicle accidents.  There are 3 issues at the junction.  1. The white line road markings have faded so drivers cannot see clearly that there is a crossroads 2. The position of the faded existing line is the wrong position for safety. If the left lane approaching the crossroads from the west was moved to the left with the white line moved 3-4 ft to the left, then vehicles would be directed to swing over to the left of the road thus gaining a clearer vision of traffic on Great Munden Road.

Nov 2025		EHDC763071754	Two abandoned vehicles at Lev Common Land CK55 VSE and on
